#with simultaneous translation german/english

LOOKING THROUGH THE KALEIDOSCOPE: A EUROPEAN MOSAIC

Registration fee

250 €

With the title of our planned annual conference, we associate a vision and description of current developments. We would also like to focus on border-crossing possibilities and strengthen European interaction.

Multifamily-Therapy has positively grown pretty fast over the past decades in many countries within and outside of Europe. The conference aims to connect existing MFT-approaches across European countries and to encourage professional and personal encounters and exchanges.
